We give explicit consent to publish the contact details of our organization and our designated IOC representative on the IYPT website.

Date and Place: ...**Friday July 8th 2022 , Auckland Grammar School, New Zealand**

Name and Position (e.g. President, Secretary General, ...) of the person authorized to sign this application on behalf of the organization:

Chairman of IYPT New Zealand : Gavin Jennings

Signature of authorized person on behalf of organization:

Signature of person who participated IYPT before and will act as the team leader:

Signature of designated IOC representative:

Annex: Brief description of the selection procedure

Each year the New Zealand Young Physicists' Tournament (NZYPT) - a competition for students attending New Zealand secondary schools – is run by IYPT New Zealand.

The IYPT NZ board meets after the 17 international problems for IYPT have been chosen and selects 7 of these problems for the NZYPT competition. The New Zealand competition NZYPT uses a subset of problems selected so as to make the competition more accessible for the apparatus most high schools would have available.

Full details of the NZYPT problems and instructions on how schools or individuals can enter the NZYPT are given on the <http://iypt.org.nz/> website. This information is advertised to schools throughout New Zealand by professional teaching organisations.

NZYPT competition structure

NZYPT Regional tournaments

There are 3 regional tournaments for school teams of 3 students per team in May each year using 7 of the 17 IYPT problems. The tournaments are held in the three biggest population centres Auckland, Wellington and Christchurch. In the regional tournament the Physics fights consist of a Reporter and an Opponent only - scored as in the IYPT.

NZYPT National tournament

The top school teams from each of the regional tournaments compete two weeks later in the New Zealand Young Physicists' Tournament National final in either a face to face competition OR Online via Zoom. The physical venue rotates between the regional centres.

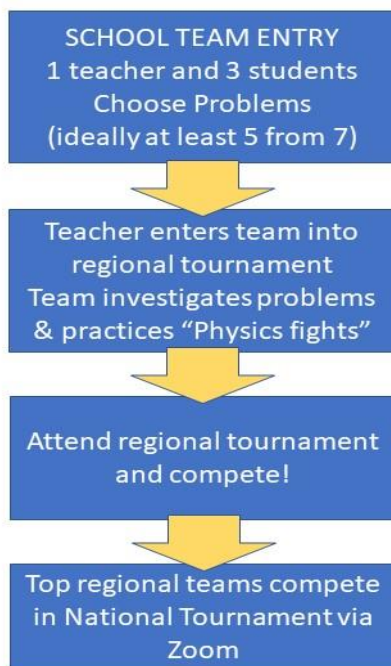

In the national final of NZYPT the Physics fights consist of a Reporter an Opponent and a Reviewer. These fights are scored as in the IYPT.

IYPT selection for the New Zealand Team

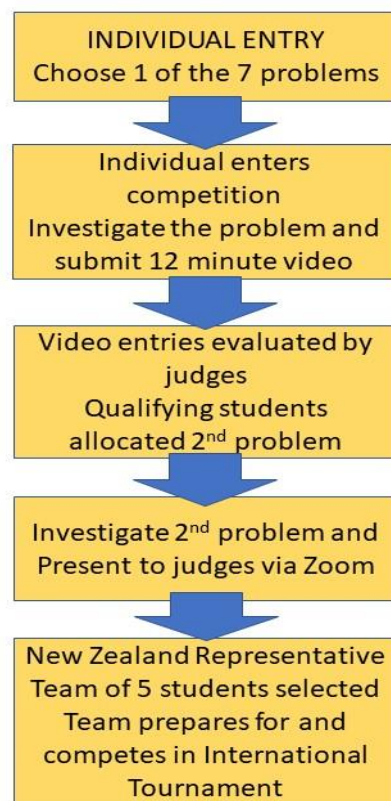

Individual students from anywhere in New Zealand are invited to submit a 12 minute video presentation to a solution for one of the 7 NZYPT problems. The top 10 (approximately) students are selected by interview from the total of the entries. These students are given a second problem to research and submit another 12 minute video presentation. After another interview via judging panel the top 5 students for the New Zealand Team are selected for the IYPT team to represent New Zealand.

Summary

NZYPT Inter-School team

NZ Team selection for IYPT

End.
