

NOVEMBER 2023

# STUDENT ACCOMMODATION REPORT

FOR INTERNATIONAL YOUNG PHYSICISTS' TOURNAMENT 2024  
BUDAPEST VISIT

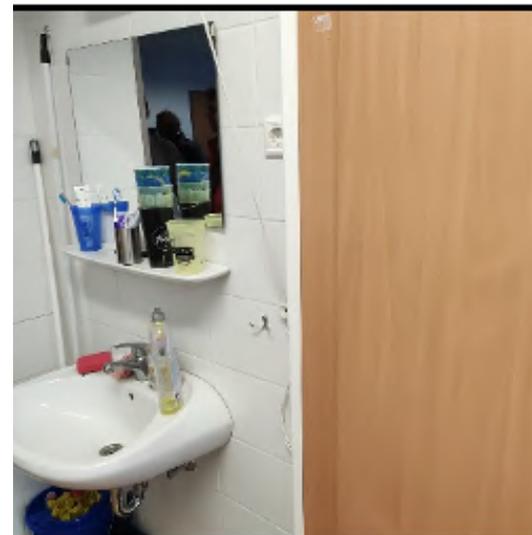

Prepared by  
ERIC SCHERTENLEIB

Approved by  
MARTIN PLESCH

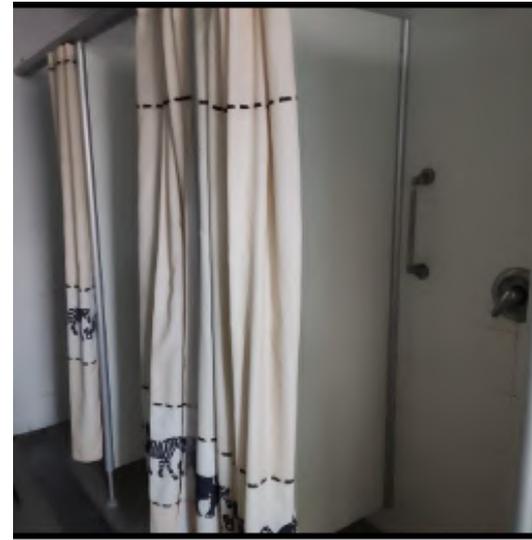

## STUDENT DORMITORY AND ROOMS

- Each double room contains a small fridge, a hand wash sink, two single beds, a desk and two chairs.

## WASHROOM

- Communal washroom with sit down style toilet, urinal, coin based washing and drying machine and shower.
- Suggestion: install shower curtain where it is missing, provide toilet paper, separation of female and male washroom based on the floor.
- **Towels will not be provided, students and non-juror team leaders have to bring their own.**

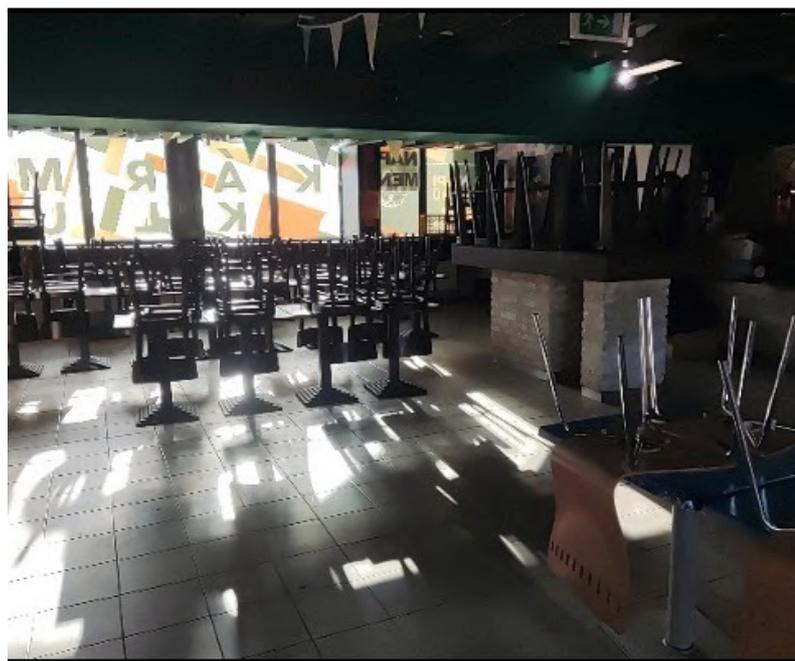

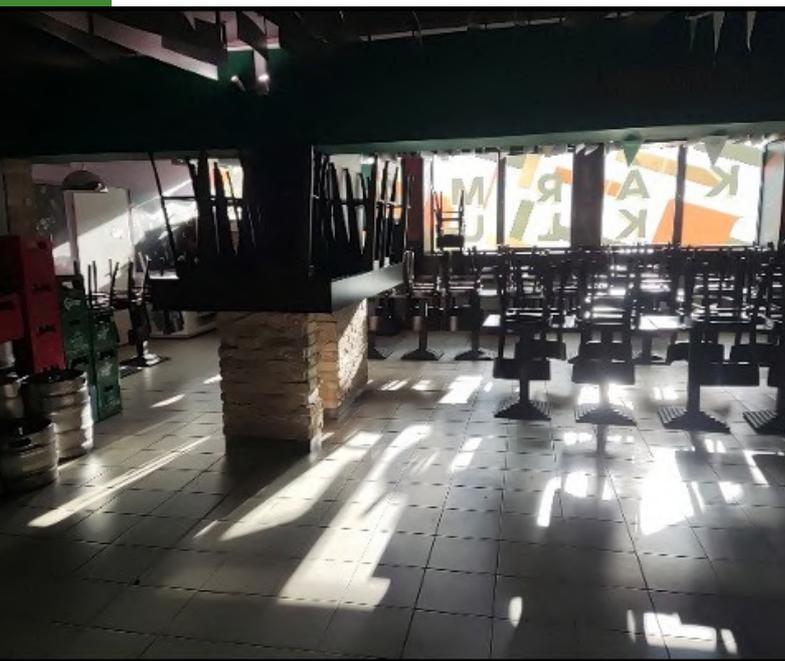

## KITCHEN

- Communal kitchen for students just in case that they want mid night instant noodle.

## BREAKFAST AREA

- The seating area for breakfast should include the floor at the entrance, the terrace outdoor (weather permitted), and the pub seating on the first floor.
- Number of seats in total? **Most probably 2 rounds for breakfast will be needed.?**

## POSSIBLE LOCATION FOR OPENING CEREMONY

- Cultural program for participants shall be provided.

## FIGHT ROOMS

- 4 room with the same layout like the above.

- Many possible fight rooms were shown, but pictures were not taken due to the fact that they were in use. Basically, there are enough fight rooms possibly located in two different buildings right across each other.
- **The exact set of competition rooms will be specified during the inspection visit.**
- **The EC suggests that if possible, recordings from the PFs should be produced at least from one room. Recordings and live broadcasts shall be prepared for the finals.**
- It is suggested that the non-team leader juror stays with the students in the dormitory while the team leader juror will be placed in the hotel. The hotel location will need to be determined in the future. The hotel that EC stayed at is the IBIS Style Budapest City. The suggestion is to find some other possible hotels with bigger rooms as the accommodation might be slightly too small for two people even though there are two beds in the room. **While the jurors and team leaders do not spend much time in the room, they need to have enough place to store luggage for a week or more, including a suit, etc. The capacity of the hotel restaurant should allow breakfast in one round for all IYPT personnel.**
- **Catering was discussed as well during the EC meeting. The EC suggests, whenever possible, to allow at least partial seating at least for dinner. When an afternoon program is planned in the city, the EC suggests organizing food coupons or other means to allow students to have their dinner in the city rather than returning to the university. This is even more important for those staying in a hotel within the city (jurors, visitors).**
- **The EC also suggests organizing a common dinner for all jurors on the second tournament day. If possible, seating shall be organized by name tags so that more and less experienced jurors are on one table and jurors from the same country are on different tables, to foster communication.**
- **Transport from and to the airport will be based on public transport facilities. If possible, EC suggests having personnel to guide at least the teams to the accommodation. Teams do come with a lot of luggage, so smooth connection without much change and walking shall be planned.**
